

AUNG THURA

FULLSTACK DEVELOPER | DIGITAL SOLUTIONS SPECIALIST

+66 814473616 | aungthura.bece@gmail.com | Huai Khwang, Bangkok, Thailand
<https://www.linkedin.com/in/aung-thura-atr> <https://wa.me/+66814473616>

Results-driven software developer with experience in full-stack development, mobile application development, API integration, and cloud deployment. Skilled in building scalable web and mobile solutions using technologies such as PHP, Laravel, .NET Core, Python, React, React Native, Next.js, Node.js, MySQL and NoSQL. Proven ability to deliver CRM systems, Mobile applications, LMS platforms, RESTful APIs, and automation tools that improve business operations and digital access. Experienced in Agile team leadership, mentoring junior developers, and deploying reliable applications on AWS and DigitalOcean. Passionate about creating practical, high-impact technology solutions that support organizational growth and user needs.

TECHNICAL EXPERTISE

PHP, Laravel, .NET Core, Python, TypeScript, React, ReactNative, Node.js, Next.js, Express.js, Tailwind, Bootstrap, MySQL, MongoDB, GraphQL, Git, Bitbucket, JIRA, Moodle, AWS, DigitalOcean, Google Cloud Platform, Linux

PROFESSIONAL EXPERIENCE

Digital Solutions Specialist | PROXIMITY DESIGNS - Yangon, Myanmar **2024 - Present**

- Architected and delivered a custom CRM web application using Next.js, MySQL, and Bootstrap, accelerating organizational workflows by 50% and reducing third-party platform costs by 40%.
- Engineered scalable, secure RESTful APIs using .NET and MySQL to power cross-platform mobile and web applications, optimizing data retrieval, handling 10k+ daily requests, and ensuring seamless system integration.
- Built an offline-first Android application using React Native, ensuring seamless digital accessibility and automated data syncing for internal teams operating in low-connectivity rural areas.
- Deployed and maintained web applications across AWS and DigitalOcean, ensuring scalability and reliability.
- Developed Python-based automation scripts and integration tools for the Data Management team, eliminating manual operational bottlenecks and streamlining data processing pipelines.

Senior IT Developer | ZABAI - Yangon, Myanmar **2019 - 2024**

- Architected and customized Moodle-based Learning Management Systems (LMS), engineering exclusive, proprietary features that significantly increased user retention and directly drove new client acquisition.
- Developed robust RESTful APIs using PHP to power Android and iOS applications, ensuring seamless cross-platform integration, and consistent client-side functionality.
- Directed the development team through the complete Software Development Life Cycle (SDLC) utilizing Agile (Scrum) methodologies, driving sprint velocity and ensuring the on-time execution of critical project milestones.
- Mentored and trained junior developers and interns, accelerating team onboarding, elevating overall code quality, and fostering a culture of continuous technical growth.
- Designed and provisioned lightweight, offline-capable E-learning infrastructure using localized physical servers (using micro and mini computers), successfully deploying progressive web applications to air-gapped and highly remote environments.

EDUCATION

Bachelor of Engineering (Computer Engineering)

2019

UNIVERSITY OF TECHNOLOGY(YATANARPON CYBER CITY) - Pyin Oo Lwin, Myanmar

Cumulative GPA: 4.33/5.0

KEY ACHIEVEMENTS

- **Slashed third-party software costs by 40%** and accelerated enterprise workflows by 50% by architecting a custom, high-performance CRM web application using Next.js and MySQL.
- **Empowered cross-platform mobile capabilities**, including an offline-first React Native application—by engineering secure, high-performance RESTful APIs using .NET and MySQL.
- **Pioneered offline-first educational access** by deploying lightweight, localized Learning Management Systems on physical infrastructure, delivering critical digital resources to air-gapped environments.
- **Accelerated software delivery lifecycles** and elevated engineering quality by directing full-stack development teams through Agile (Scrum) methodologies and targeted technical mentorship.
- **Drove digital capacity building** and new client acquisition by delivering exclusive, customized Moodle LMS features and leading comprehensive technical training for partner organizations.

CERTIFICATIONS

- **AWS Certified Solutions Architect – Associate**
- **AWS Cloud Technical Essentials**
- **MongoDB Node.js Developer Path**
- **Scrum Certification for Web Developer**

LANGUAGES

- **English** (Working Proficiency)
- **Burmese** (Native)
